Description

The Conspiracy Files: Evidence Behind the World's Most Notorious Theories reviews current and historical mysteries, clearly setting out the main players involved in each story and providing detailed background information.

In assessing the known facts, this book brings together the actual details and the flaws in each theory. This unique gathering of the hard facts works to spell out the sometimes preposterous, yet always fascinating, connections between the different theories.

Woven into *The Conspiracy Files* are features on the world's greatest conspiracy theorists. Are these conspiracy fanatics actually visionaries, or simply deluded paranoiacs?

Sales Points

- A new and detailed review of the most famous conspiracy theories by an expert academic
- Provides an insight into the links between seemingly disparate occurrences and reviews the factual basis of these interrelated conspiracy theories

Author Profile

Dr Kenn Thomas has spent the last twenty-three years studying, writing about and lecturing on conspiracies. In 1992 he founded his own magazine, *Steamshovel Press*, to present the research of the best conspiracy analysts and this magazine has earned an international reputation for uncovering facts and making otherwise unnoticed connections.

Since 1992, Kenn has written over a dozen books on various conspiracy topics, including NASA, the Nazis, JFK and the Maury Island UFO. His writings have appeared in many other conspiracy-oriented magazines, including *Paranoia*, *Nexus*, *Phenomena* and *Fate*, and he appears regularly on radio and television as a conspiracy expert.
